

Seyedali Rafazi

Frontend Engineer

+98 9022442865 – Seyedalirafazi80@gmail.com - <https://github.com/seyedali-rafazi>

Summary

Frontend Engineer with **4+ years** of professional experience building scalable, production-grade web applications using **React**, **Next.js**, and **TypeScript**. Currently pursuing a **Master's degree** in **Artificial Intelligence**. Experienced in developing complex state management and data-fetching architectures with **Redux** and **React Query**, as well as maintaining large-scale codebases within **Monorepo** environments. Specialized in geospatial (**GIS**) and data-intensive applications using **Mapbox**, **Leaflet**, and **Cesium**, with experience optimizing interactive maps and dashboards to efficiently handle large data points.

Experience

2026 - present

Frontend Engineer | Contract

Estinas company

- Designed and developed a **production-grade** enterprise Telecom & B2B Platform using **React**, **TypeScript**, **Tailwind CSS**, enabling centralized lifecycle management for telecom organizations, subscribers, and SIM cards.
- Built interactive telemetry and **data traffic visualization dashboards** using **Apache ECharts**, tracking real-time network data consumption (upload/download traffic trends, voucher utilization, and quota limits).

2024 - 2026

Frontend Engineer

Sharif Hamrah Pajouhan company

- Designed and developed **production-grade geospatial** applications using **React**, **TypeScript**, **monorepo** (Nx, Turborepo) and **MUI**, supporting enterprise-level operational workflows.
- Designed and developed complex and interactive **dashboards** and **geospatial visualization** systems using **Mapbox**, **Cesium**, **Leaflet**, **AG Grid**, and **AG Charts**, enabling real-time monitoring, analysis, and visualization of large-scale geospatial data.

Demo websites: kihannama.ir , asemanyar.ir

2022 - 2023

Full-Stack Engineer

Freelancer

- Designed and developed **full-stack** web applications using **React**, **Next.js**, **TypeScript**, and **FastAPI**.
- Built RESTful **backend APIs**, authentication and authorization systems, database integrations, and business logic using **FastAPI**, **MongoDB**.

Education

2023 -2026	Soft Computing and Artificial Intelligence Islamic azad university science and research branch
2019 -2023	Computer Science Islamic azad university science and research branch

Production Projects

Shamim - Estinas company| Currently working on this project

- Built an enterprise-grade telecom management platform for monitoring SIM cards, subscribers, and system administrator.
- Implemented high-performance data tables with multi-criteria filtering, batch operations, dynamic ECharts analytics, and Excel report exports..
- Delivered optimized caching using TanStack Query, Radix UI primitives.

Stack: React, TypeScript, TanStack Query, TanStack Table, Tailwind CSS, Radix UI, ECharts, Vite

Kihannama - Sharif Hamrah Pajouhan company

- Built a 3D satellite visualization platform displaying Iran's satellites globally.
- Implemented interactive Cesium layers, real-time orbit rendering, and responsive UI.
- Delivered smooth 3D performance and accurate geospatial rendering.

Stack: CesiumJS, React, TypeScript, Redux, MUI

Demo Website: kihannama.ir

Asemanyar - Sharif Hamrah Pajouhan company

- Developed a real-time flight tracking interface with animated aircraft movement and highly optimized WebGL rendering.
- Handled **10K+ aircrafts and objects** with smooth interaction and fast updates.
- Designed clean, modern UI and implemented real-time data pipelines.

Stack: Mapbox, Deck.gl, React, TypeScript, MUI, Redux Toolkit

Demo Website: asemanyar.ir

Skills & abilities

- **Frontend:** React, Next.js, React Native, TypeScript, JavaScript
- **UI:** MUI, Tailwind CSS, Shadcn UI , Ant design
- **State Management:** Redux Toolkit, React Query
- **Geospatial:** Mapbox GL JS, Deck.gl, CesiumJS, Leaflet, WebGL
- **Backend (Familiar):** Node.js, Express , FastApi ,Django
- **Tools:** Git, GitLab, Docker , Monorepo
- **Communication:** WebSockets, REST APIs , GraphQL
